

BIGMAE 1.0

(Bio Informatics Google Meet Automatic Entry)

Developer :HIMANSHU GIRHDAR

REQUIREMENTS

- One drive **other than C is required** having more than 2 gb free space.
- Works only on Microsoft windows
- Python must be installed
- Google Chrome must be installed in C drive
- A different IIITA Profile must be there in Google Chrome
- Keep Google chrome close at the time of installation.

Quick Installation Guide

1. Enter the drive (c,d,e...) in which software will be installed.
2. Enter (y/n) whether iiita profile is default or not(see from “chrome://version”),
3. If n is input then enter the profile number in next input.

Detailed Installation Guide

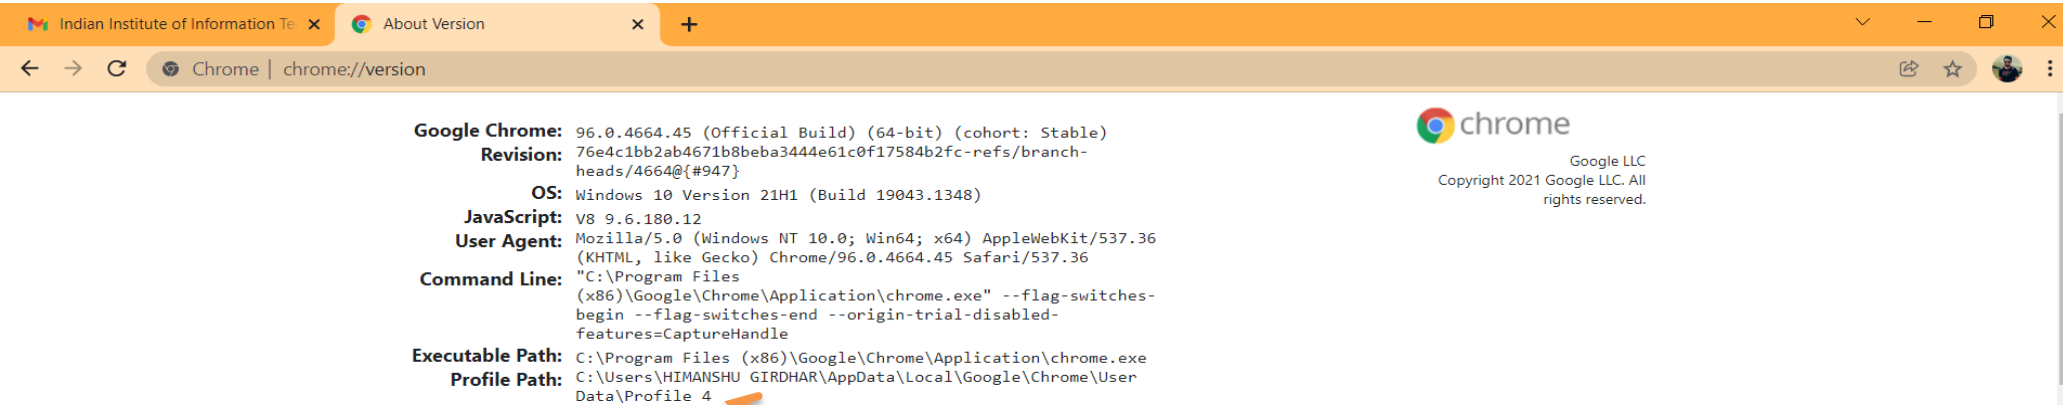

- First input will be the drive in which you want to install only one letter(“BIGMAE-1.0 installer”)

```
Thanx for choosing BIGMAE
Note : Please close all chrome windows before starting!
Please enter the installation directory,Note: Directory should have minimum 2 gb free space      v_
```

- Second input will be whether google chrome profile(in which iiita id is logged in) is Default or not(see next page for how to check it). If not also note down profile number, will be required in next step(input will be in y or n)

```
Thanx for choosing BIGMAE
Note : Please close all chrome windows before starting!
Please enter the installation directory,Note: Directory should have minimum 2 gb free space      v
Is IIIITA profile is Default(y/n)?, Type 'chrome://version/' in chrome address bar and from profile path see whether it is default or Profile 1,2...n
```

- Note: installation is required only the first time , keep your internet on at the time of installation. Around 20 mb internet will be consumed.

- Enter “chrome://version” in chrome address bar logged in with iiita id, See the arrowed information under Profile Path.. If Default give input “y” in 2nd step.. In example it is Profile 4 so give “n” as input(close the chrome before giving input)
- If input is “n” now third input will be as for Profile number

```
Thank for choosing BIGMAE
Note : Please close all chrome windows before starting!
Please enter the installation directory,Note: Directory should have minimum 2 gb free space      v
Is IIITA profile is Default(y/n)?, Type 'chrome://version/' in chrome address bar and from profile path see whether it is default or Profile 1,2...n      n
Please Enter Google Chrome IIITA profile number 4_
```

- Other wise no input is required and installation will start, it will take some time.. When it will be completed it will turn off itself.. Now use “BIGMAE-1.0” to login into class
